“ Empire Comfort Systems Inc. has manufactured safe, reliable heating systems since 1932. We take pride in our reputation for quality products, backed by the best sales, service, and distribution network in this industry. The White Mountain Hearth Series combines our proven technologies with exceptional artistry and craftsmanship to add beauty and warmth to any home. ”

**Rushmore 40-inch Fireplace (47,500 Btu) with Rustic Brick Liner, Forged Iron Front, and Rectangle Inset**

### **Rushmore Clean-Face Direct-Vent Luxury Fireplaces with TruFlame Technology**

Rushmore direct-vent clean-face fireplaces with TruFlame Technology re-imagine the gas fireplace –in its aesthetics and its technology. Available in 40-inch and 36-inch models.

The enormous ceramic glass front frames the beautifully crafted 14-piece log set blazing atop a full-floor ember bed. Rich yellow flames roll over and around the logs, mimicking the burn of a natural wood fire.

The TruFlame Technology uses an integrated catalyst system to scrub the exhaust, to remove potential pollutants from the flue output – making this the most eco-friendly vented fireplace on the market.

Your TruFlame fireplace includes an easy-to-use thermostat remote to control the dual burners, the built-in accent lighting, and the optional double blowers. Simple, on-screen icons let you manually vary the flame height, light intensity, and blower speed (if installed).

# Rushmore Direct-Vent Fireplace with TruFlame Technology

The list of accessories accents the fire within – starting with the rustic forged iron fronts. Use them alone or with the matching insets. Complete that old-world look with the ceramic fiber liner – featuring massive stones scaled to fit this big fireplace – and a set of decorative andirons.

The fireplace can also be outfitted for a more contemporary home with a black porcelain liner. The optional whisper-quiet double blower distributes warmth throughout the room.

**Rushmore 40-inch Fireplace (47,500 Btu) with Black Porcelain Liner**

## Boulevard Linear Direct-Vent Fireplaces

**Boulevard 72-inch Direct-Vent Fireplace with Multi-color LED Lighting, Black Glass Liner, Driftwood Log Set, and Clear Crushed Glass**

**Boulevard 60-inch Direct-Vent Fireplace with Ridgeback Corrugated Liner and Rustic Log Set**

### **Boulevard 48, 48 See-Through, 60 and 72 Linear Direct-Vent Fireplaces**

These larger-than-life fireplaces deliver all the ambiance and warmth you need for large spaces. Choose the Boulevard 48 (37,000 Btu Nat / 34,000 Btu LP), the Boulevard 48 See-Through (37,000 Btu Nat / 34,000 Btu LP), the Boulevard 60 (46,000 Btu Nat / 42,500 Btu LP), or the Boulevard 72 (52,500 Btu Nat / 50,000 Btu LP).

Tailor your Boulevard to suit your taste, starting with a liner. Crushed glass covers the fireplace floor (available in a variety of colors), while the variable lighting (standard for the 48 See-Through, 60, and 72-inch models) lets you set the perfect mood – whether the fireplace is burning or not. Choose Clear Frost, Copper Reflective or Bronze Reflective crushed glass. Accent with other glass colors (see page 29).

Choose between two available log sets. The Rustic Log Set includes a unique assortment of ceramic fiber logs and stones, plus coiled slivers of stainless steel; or select the Driftwood Log Set for a more contemporary look.

Add tile right up to the rectangular opening to create a stunningly beautiful, amazingly efficient clean-face fireplace. An optional trim kit or front finishes the opening and adjusts for different depths of tile or stone.

# Boulevard Linear Direct-Vent Fireplaces

**Boulevard 60-inch Direct-Vent Fireplace with Black Porcelain Liner, Hammered Pewter Trim, and Clear Frost Crushed Glass**

**Boulevard 48-inch Direct-Vent See-Through Fireplace with Ledgestone Liner, Clear Crushed Glass, and Stainless Steel Outdoor Kit**

**Ridgeback Corrugated**  
(available for single-sided models only)

**Ledgestone**  
(available for see-through model only)

**Black Porcelain / Glass**  
(Glass available for DVLL72 model only)

**L to R: 3/4-inch Matte Black; 3/4-inch Hammered Pewter; 3-inch Forged Iron**

**Clear Frost Decorative Glass**

**Bronze Reflective Crushed Glass**

**Copper Reflective Crushed Glass**

**Boulevard 41-inch Traditional Direct-Vent Fireplace, 4-inch Surround with Barrier Screen, and Charred Log Set**

### **Boulevard 41 Linear Direct-Vent Fireplaces**

The 34,500 Nat / 31,500 LP heater-rated Boulevard Fireplace features a large ceramic glass window (more than 700 sq. in.) that provides excellent heat transfer and contributes to its exceptional efficiency.

They include an intuitive Multi-Function remote control with day-of-week thermostat programming so you can set it to cycle off at bedtime and cycle on in the morning, so you wake to a warm fire.

The Boulevard's Intermittent Pilot system eliminates the standing pilot – saving energy and your money. When you want fire, press the button – or just let the programmable thermostat maintain your desired room temperature. Thanks to its advanced logic, the thermostat remote control anticipates heat demand to minimize temperature fluctuations in the room.

In the event of a power outage, your Boulevard fireplace can operate with a standing pilot – to provide life-saving warmth for your home until power is restored.

## Boulevard Linear Direct-Vent Fireplaces

The Contemporary model features a linear burner, lighting mounted beneath the burner, and a black porcelain liner. The rich liner reflects the flames and the lighting. Optional decorative ceramic glass panels add visual interest to the fireplace interior and complement the flames. Crushed glass or glass droplets add a distinct contemporary look to the fireplace. For available decorative media, see page 29.

Use the remote control to raise or lower the lighting levels and the panels glow red along their edges. The remote control also operates the optional blower.

**Boulevard 41-inch Contemporary Direct-Vent Fireplace with 4-inch Surround**

The Boulevard Traditional model lets you choose one of our hand-painted log sets – Charred or Driftwood. For faster heat distribution, order the optional circulating blower. Matte black walls accentuate the simplicity and clean lines. The black porcelain liner is available as an accessory.

**Charred Log Set**

**Driftwood Log Set**

Complete your fireplace installation with a required decorative front. All fronts include barrier screens.

**2-inch Surround**

**4-inch Surround**

**Tidewater Surround  
(also available in matte black)**

Both fireplace styles are available in LP and Natural Gas.

## Forest Hills Portrait-Style Direct-Vent Fireplaces

Forest Hills Portrait-Style Contemporary Direct-Vent Fireplace with White Piazza Vessel

### Forest Hills Portrait-Style Traditional and Contemporary Fireplaces

With its clean vertical lines the Forest Hills Portrait Fireplace adds a striking design element to your home décor. Available in Contemporary and Traditional models, these unique fireplaces offer several designer options to let you create your perfect fireplace. The clean-face design allows tile or stonework to the edge of the window frame.

In the contemporary models, the vertical motif carries through to the interior where multiple folds in the porcelain liner add to the impression of height. The rich black porcelain reflects the fire to create depth and enhance visual interest from any position in the room. The dual burner system resides in an earthenware vessel – in your choice of black or white – filled with your choice of crushed glass. Variable accent lighting concealed beneath the floor creates a warm glow.

For a more conventional fireplace, choose the traditional model with its realistic hand-painted log set and ceiling-mounted accent lighting. Add the Rustic Banded Brick or Old World Stone liner – or the Black Porcelain liner which reflects the flame to create even greater visual interest. The available andirons add to an old-world look. The optional blower aids in heat circulation.

Old World Stone Liner

Rustic Banded Brick Liner

Black Porcelain Liner

Decorative Andirons

## Forest Hills Portrait-Style Direct-Vent Fireplaces

All Forest Hills fireplaces include a multifunction remote control that can vary the flame height of the main burner. The remote lets you vary the accent lighting system, the optional blower, and even operate an unrelated appliance – such as a lamp or holiday decorations plugged into an outlet beneath the fireplace.

Add a decorative front or frame to your new direct-vent fireplace. Choose from two styles in finishes including hand-forged black copper and natural iron. Your front or frame attaches in seconds. Each front or frame comes with a fireplace screen to prevent contact with the hot glass. A simple black barrier screen is also available.

**Cathedral Front  
in Black Copper**

**Portico Front  
in Natural Iron**

**Barrier Frame  
in Matte Black**

**Forest Hills Portrait-Style Traditional Direct-Vent Fireplace with Old World Stone Liner and Cathedral Front in Black Copper**

# Loft Contemporary Direct-Vent Fireplaces

## Loft Series Small and Medium Direct-Vent Fireplaces

Designed for in-wall installation, your direct-vent Loft fireplace delivers state-of-the-art technology for extraordinary performance.

Black porcelain lines the fireplace interior, including the burner top, creating a subtle reflective surface that enhances the appearance of depth. Flickering yellow flames dance atop the linear burner, echoing their light off the glass and the porcelain liner to create a nearly infinite flame effect – making your Loft fireplace mesmerizing from any angle.

The required metal surround is available in three styles and a variety of finishes.

Put a twinkle in your Loft fireplace by covering the burner top with the optional decorative glass. Choose from crushed glass, 1/2-inch droplets, and 1-inch drops. Available in Millivolt and Intermittent Pilot.

These fireplaces require a barrier screen or decorative surround/front with barrier screen.

## Tahoe Luxury Direct-Vent Fireplaces

Tahoe 36 Luxury Direct-Vent Fireplace with Banded Brick Liner, Arched Louvers and Outer Frame in Matte Black in a Custom Mantel and Base

### Luxury Series

- 35,000 Btu Nat, 36-inch, 13-piece Log Set (Top-Vent Only)
- 30,000 Btu LP, 36-inch, 13-piece Log Set (Top-Vent Only)
- 37,500 Btu Nat, 42-inch, 13-piece Log Set (Top-Vent Only)
- 35,000 Btu LP, 42-inch, 13-piece Log Set (Top-Vent Only)

Tahoe Luxury models retain the same overall dimensions as Premium models but feature ceramic glass (for better heat transfer), dimmer-controlled accent lamp inside the fireplace, automatic blower, and an intricately detailed 13-piece log set atop the Slope Glaze Excess Burner for a fuller ember bed. And with its larger flame, the Luxury fireplace produces more heat.

Luxury models are offered in Millivolt (with standing pilot), Intermittent Pilot, and Multi-Function Remote models. Multi-Function Remote models include a thermostat remote control that automatically varies flame height and blower speed to maintain your pre-set temperature.

See pages 28-29 for liners, control options, decorative accessories, and required barrier screens.

Tahoe Luxury 42 Direct-Vent Fireplace with Banded Brick Liner

## Premium Series

- 25,000 Btu Nat, 36-inch, 4-piece Log Set
- 27,000 Btu LP, 36-inch (Top-Vent Only), 4-piece Log Set
- 28,000 Btu, 42-inch, 4-piece Log Set
- 30,000 Btu, 48-inch, 4-piece Log Set

Every Premium Tahoe model includes a tempered glass view window and a four-piece log set, mounted atop our legendary Slope Glaze Burner for a rich flame pattern within a taller, deeper log stack that complements the deeper fireplace (20 inches).

Premium Tahoes are offered in Millivolt models (with standing pilot), in Intermittent Pilot models, and in Multi-Function Remote models. Multi-Function Remote models include a thermostat remote control that automatically varies flame height and blower speed to maintain your pre-set temperature.

See pages 27-29 for liners, control options, decorative accessories, and required barrier screens.

## Deluxe Series

- 18,000 Btu, 32-inch, 5-piece Log Set
- 20,000 Btu, 36-inch, 5-piece Log Set
- 25,000 Btu, 42-inch, 7-piece Log Set
- 28,000 Btu, 48-inch, 7-piece Log Set

The Contour Burner on Deluxe Tahoe models – designed specifically to complement the log set – produces a natural dancing flame. The large heat-resistant, tempered glass window provides an unobstructed view of the hand-painted log set.

Deluxe models require just 16 inches of depth, making them ideal for applications where wall-cavity space is tight.

Deluxe models are offered in Millivolt (with standing pilot), and Intermittent Pilot similar to modern gas range ignition.

See pages 28-29 for liners, control options, decorative accessories, and required barrier screens.

**Tahoe 36 Premium Fireplace with Aged Brick Liner, Black Slat Louvers and Black Outer Trim with a White Standard Corner Mantel**

**Tahoe 36 Deluxe Fireplace with Aged Brick Liner, Arch Louvers, Outer Trim in Black, and Cherry Mantel**

## Tahoe Deluxe and Premium Clean-Face Multi-Sided Fireplaces

**Tahoe Peninsula Direct-Vent Fireplace with Multi-Sided Refractory Log Set in Custom Mantel**

### Deluxe Multi-Sided Fireplaces

These Tahoe 36-inch peninsula and see-through fireplace systems are rated at 35,000 Btu and include a 24-inch Slope Glaze Vista Burner installed (and slightly recessed into the floor of the fireplace) ready for the matching Rock Creek Log Set (sold separately).

The unique Slope Glaze Vista Burner features ceramic pellets inside a large burner pan to create a deep field of dancing flames and is topped off with a hand-painted log set. Even when the fireplace is off, the available dimmer-controlled interior lighting creates drama in any room.

Designed to complement our existing fireplace products, the see-through and peninsula fireplaces accept many of the same decorative louver and door accessories as our conventional premium fireplaces, providing better continuity in homes with multiple fireplaces.

The see-through system is viewable from two sides for built-in-wall applications. The peninsula system is viewable from three sides making it ideal for building into buttress walls or installing in a peninsula mantel.

**Premium Clean-Face Direct-Vent Peninsula Fireplace, shown with Black Fluted Liner, Mixed Stones and Logs Installed in Custom Surround**

### Premium Clean-Face Multi-Sided Fireplaces

These Tahoe 36-inch premium clean-face peninsula and see-through fireplace systems are rated at 34,000 Btu (Nat) / 32,500 Btu (LP).

The see-through system is viewable from two sides for built-in-wall applications. The peninsula system is viewable from three sides making it ideal for building into buttress walls.

Both Peninsula and See-through models feature an attractive clean-face design that integrates the barrier screens into the fireplace – flush with the fireplace face – allowing you to install tile, brick, or other non-combustible materials right up to the fireplace opening.

Choose one of three liners and one of two log sets to customize your fireplace. Barrier screens included. Optional blower and light kit also available.

## Luxury Clean-Face Traditional Fireplace

- DVCX36FP – 37,000 Btu, 36-inch, 5 x 8 Top Vent only (View area – 796 sq. in.)
- DVCX42FP – 40,000 Btu, 42-inch, 5 x 8 Top Vent only (View area – 893 sq. in.)

With its large ceramic glass window and clean-face design, the Luxury Clean-Face Tahoe looks just like a site-built fireplace, but delivers the convenience and operating efficiency of a modern gas system. The traditional luxury clean-face fireplace is available in 36-inch and 42-inch models.

The Luxury Clean-Face Tahoe includes a ceramic fiber brick floor that complements the massive log set. Add the matching Rustic Brick liner or change the look of your fireplace with the Old World Stone or Black Porcelain liner. The 10-piece ceramic fiber log set is hand painted for stunning realism with detailed bark, knots, and charring.

Add a decorative door set to your new direct-vent luxury fireplace. Your forged iron door set attaches in seconds. Each fireplace comes with a fireplace barrier screen to prevent contact with the hot glass. Add the available andirons to convey an old-world look.

The available dimmer-controlled lighting kit draws attention to your fireplace even when no fire is burning. Enhance heat distribution with the optional variable-speed blower.

Luxury models are available in three distinct technologies: Multi-Function Remote system, Millivolt, or Intermittent Pilot.

Luxury Tahoe Clean-Face Fireplace with Old World Stone Liner

Forged Iron Doors

Decorative Andirons

## Premium Clean-Face Traditional Fireplace

- DVCP32BP – 24,000 Btu, 32-inch, 4 x 6 5/8 Top Vent only (View area – 684 sq. in.)
- DVCP36BP – 24,000 Btu, 36-inch, 4 x 6 5/8 Top Vent only (View area – 759 sq. in.)
- DVCP42BP – 28,500 Btu, 42-inch, 4 x 6 5/8 Top Vent only (View area – 963 sq. in.)

The Premium Clean-Face Tahoe includes a tempered glass view window and a unique burner that delivers a rich flame pattern. The ceramic fiber log set is required (but sold separately). Each log is hand-painted for stunning realism with detailed bark, knots, and charring.

Ceramic Fiber Liner options for Premium models include a traditional Aged Brick with smoky highlights and an old-world Rustic Brick. Or choose the deep black polished porcelain-steel liner that reflects the flames for a luxurious effect.

The available lighting kit draws attention to the intricate details in the log set and brick liner – even when no fire is burning. You can enhance heat distribution with the optional variable-speed blower. Both the light and blower include dimmer controls.

Premium models are available in Millivolt and Intermittent Pilot. Barrier screen included.

**Premium Clean-Face Direct-Vent Fireplace with Rustic Brick Liner**

## Premium Clean-Face Contemporary Fireplace

- DVCC32BP – 24,000 Btu, 32-inch, 4 x 6 5/8 Top Vent only (View area – 684 sq. in.)
- DVCC36BP – 24,000 Btu, 36-inch, 4 x 6 5/8 Top Vent only (View area – 759 sq. in.)
- DVCC42BP – 26,500 Btu, 42-inch, 4 x 6 5/8 Top Vent only (View area – 963 sq. in.)

The Premium Clean-Face Tahoe includes a tempered glass view window and a unique burner that delivers a rich flame pattern. The ceramic fiber rock set is required (but sold separately). Each rock piece is hand painted.

The contemporary fireplace includes a deep black polished porcelain-steel liner with added angles to enhance the reflected flames.

Create highlights on the glass media and porcelain liner with the optional lighting kit. And the option variable-speed blower helps circulate warm air throughout your living space. Both the kits include dimmer controls.

Premium models are available in Millivolt and Intermittent Pilot. Barrier screen included.

**Premium Clean-Face Direct-Vent Fireplace with Black Porcelain Liner and Decorative Rock Set**

## Direct-Vent Clean-Face Deluxe Fireplaces

With their louverless fronts and edge-to-edge viewing area, these Tahoe clean-face fireplaces serve as the ideal focal point for any new construction or remodeling project. Choose Millivolt or IP (Natural or LP) for reliable heating – even in a power outage.

Available in 32-inch (18,000 Btu), 36-inch (20,000 Btu), or 42-inch (25,000 Btu), these all-new fireplace systems feature hand-painted ceramic fiber logs atop our proven Contour burner. As versatile as they are attractive, these Deluxe Fireplaces require just 17 3/4-inches wall depth for installation and allow top or rear venting. Optional accessory liners are available in Aged Brick, Stacked Stone, Herringbone, or Black Reflective. A factory-installed blower is also available. Barrier screen included.

See page 27 for Profile Mantels and Mantelshelves and page 29 for liners and control options.

**Tahoe 32 Clean-Face Deluxe Direct-Vent Fireplace with Aged Brick Liner, Custom Mantel and Surround**

## Rushmore Direct-Vent Fireplace Inserts with TruFlame Technology

**Rushmore 30-inch Direct-Vent Fireplace Insert with Black Porcelain Liner and Driftwood Log Set**

### Rushmore Inserts with TruFlame Technology

Available in 30-inch and 35-inch models, Rushmore Direct-Vent Inserts turn your wood-burning fireplace into an attractive and efficient centerpiece. The TruFlame system combines technology with aesthetics to create truly realistic flames and a glowing ember bed, reminiscent of a wood fire. Beneath the logs, the massive field of glowing embers assures everyone that this fireplace has been warming your home all day. Concealed beneath the logs and embers, the two burners let you vary the flame and the heat output to create the perfect mood.

Complementing the logs and giant ember bed, TruFlame Technology includes two burners for independent front/rear burner control of the ultra-realistic flames. With both burners in your control, you can call for a roaring fire, a low glow, or anywhere in between.

# Rushmore Direct-Vent Fireplace Inserts with TruFlame Technology

**Rushmore 35-inch Direct-Vent Fireplace Insert with Old World Stone Liner, Traditional Charred Log Set, and Forged Iron Front and Arch Inset**

The multifunction remote operates as a conventional thermostat, a Smart Thermostat which modulates flame height as the room reaches the desired temperature, or as a manual control. The remote also operates the included accent light and blower.

Your Rushmore Direct-Vent Insert includes the accent light and blower. Customize your insert further by choosing a liner and log set (both required), and finish it with a required surround and optional front.

## Innsbrook Direct-Vent Fireplace Inserts

**Innsbrook Direct-Vent Fireplace Insert with Washed Brick Liner, 1-piece Metal Surround, and Horizon Decorative Doors (non-operable) in Matte Black**

### Innsbrook Traditional Inserts

A wood-burning fireplace sends more than half of its heat up the flue, creating negative pressure in your home, which draws in outside air through gaps in doors and windows. A wood fire can actually make your home colder.

A Direct-Vent insert system eliminates pressure imbalances in the home that can cause drafts that reduce the effectiveness of heating. The Innsbrook Direct-Vent insert uses readily available 3-inch flexible co-linear vent pipes. At up to 73% efficient, the Innsbrook Direct-Vent Insert makes a great heat source for any room in your home.

Choose a stylish liner and a decorative front or doors (1-piece Metal Surround required for installation). Custom surrounds available.

# Loft Direct-Vent Fireplace Inserts

## Loft Fireplace Inserts

Installing a Loft Fireplace Insert turns your messy and inefficient wood-burning fireplace into a clean-burning, efficient heat source – an investment that will quickly pay for itself in saved energy and reduced hassle.

Available in Millivolt and in energy-saving on/off Intermittent Pilot control systems, your insert starts saving energy and improving your décor from the moment you first turn it on.

Loft Direct-Vent Fireplace Insert with Black Reflective Decorative Glass and Matte Black Surround

## Decorative Fronts and Glass

For the Loft DV Insert, choose a matching contemporary surround in all black or in black and stainless steel. The bold stainless steel panels top and bottom accentuate the clean horizontal look of the Loft Insert. Complete your Loft insert with decorative glass – available in Black Polished, Blue Clear, Clear Frost, Bronze Reflective, and Copper Reflective.

Empire Medium Direct-Vent Cast Iron Stove in Porcelain Black with Barrier Screen and optional Side Shelves

## Empire Direct-Vent Cast Iron Stoves

Bring the warmth and beauty of an Empire Direct-Vent Cast Iron Stove into your home.

Empire Direct-Vent Cast Iron Stoves come standard with our Expanded Slope Glaze Burner system – which adds an extra inch of ember bed. Topped off with the hand-painted ceramic fiber log set, the effect is stunningly realistic and guaranteed to keep you and your guests mesmerized for hours.

Empire Stoves are available in Millivolt and Intermittent Pilot. The Millivolt system lights a standing pilot with a pushbutton piezo ignitor. Once the standing pilot is lit, the MV system operates with an on/off switch or optional remote control system. The standing pilot allows your Empire stove to provide heat during power outages.

IP systems eliminate the standing pilot for even greater energy savings. Pressing the on/off switch ignites the pilot, which then ignites the main burner. IP systems can also operate with an optional remote control system. Battery backup allows your Empire stove to provide heat during power outages.

Empire direct-vent models use standard 4 x 6 5/8 vent pipe and require a 45-degree angle pipe off the back to vent vertically or horizontally. The stove generates sufficient heat to warm any room in your home or provide total heat for a small cabin. Your dealer can help you determine your heating requirements.

All Empire Cast Iron Stoves ship assembled in one carton for easier set-up and include a barrier screen.

Empire Cast Iron Stoves are available in two sizes – compact (19,500 Btu) and medium (26,500 Btu).

Floor pads are available but not required. You can place your Empire Stove directly on carpet or tile.

Empire Gas Stoves include a hand-painted log set and Slope Glaze Burner.

Compact Stove Finishes	Porcelain Black	Mahogany	Matte Black		
Medium Stove Finishes	Porcelain Black	Mahogany	Matte Black	Sand	Matte Pewter
Stone Inlays*	Adobe Frost Granite	American Beauty Marble	Temple Gray Marble	Venetian Gold Granite	

\*Stone inlays available for Empire Medium Cast Iron Stoves only.

## Keystone B-Vent Fireplaces

Keystone 36 Deluxe Fireplace shown with Hammered Pewter Mission Louvers in a Profile Mantel

### Keystone Series

Keystone B-Vent Fireplaces combine modern technology with traditional venting to create the appearance and performance of a conventional fireplace but with the convenience of gas.

Our B-Vent systems let you prolong the flicker of the flames without overheating your room. The BVD34 input is 21,000 Btu; the BVD36 is 25,000 Btu; and the Premium BVP42 is 30,000 Btu.

The hand-painted ceramic fiber log set features large logs, arranged to fill the fireplace and complement the flames.

Our deep Premium 42-inch B-Vent fireplace features our Vented Slope Glaze Burner – the industry standard for great looking flames. Ceramic glazed pellets in the burner tumble and swirl the gas to produce a natural flickering fire.

See pages 28-29 for options and accessories.

Deluxe BVD34

Premium BVP42  
(shown with optional Aged Brick Liner)

**Standard Cabinet Mantel in Oak**

## Standard Mantels

Standard mantels are built from 3/4-inch fine-furniture grade cabinetry components, including MDF wrapped in select hardwood veneers.

Each mantel is detailed in matching solid wood trim – in oak or poplar. The full 3/4-inch cove moldings and edge trim add structural integrity. Matching decorative trim pieces – in complementary sizes – add beauty and character. Available in standard cabinet and corner cabinet.

## Profile Mantels and Mantelshelves

Available in flush only, our competitively priced Profile Mantels and Mantelshelves feature 1/2-inch cabinet-grade plywood construction with real hardwood moldings. Specify primed (for painting) or unfinished (for staining, painting, or faux finishing).

**Profile Mantel**

- Flush mantels in 48-inch and 52-inch
- Requires non-combustible surround
- Ideal for new construction and remodeling
- Primed or unfinished hardwood
- Reversible pilasters for fluted or smooth style

**Profile Mantelshelf**

- Available in 48-inch, 60-inch, and 72-inch
- Ideal for new construction and remodeling
- Primed or unfinished hardwood

**Standard Corner Mantel**

- Available in Cabinet mantels and Corner Cabinet mantels in 32-inch, 36-inch, and 42-inch
- Built-in base
- Fits White Mountain Hearth fireplaces without modification

## Decorative Fronts and Outer Frames

Decorative accessories let you tailor your firebox or fireplace to your décor. Choose louvers in three patterns – slat, arched, and mission – finished in matte black or hammered pewter.

Matching door sets and frames complete the transformation from an attractive fireplace to a stunning focal point.

Our metal three-piece outer frames let you transition from your fireplace to any adjoining surface – wooden mantel, tile, stone, or any non-combustible material. Choose from steel frames – with traditional crisp lines – or our extruded aluminum frames – with a profile that combines gentle concaves with flat surfaces.

Our bottom trim completes the fourth side of the color frame.

Accessory availability varies by fireplace.

 • Wall Thermostat, Wireless  
 • For Millivolt

# Vented Sand Pan Burners and Logs

## Vented Sand Pan Burners and Logs

Our Vented Gas Log Sets provide all the ambiance of a roaring wood fire, with the convenience of instant lighting, instant extinguishing, and variable flame height. The vented gas burners generate a fraction of the air pollution produced by burning wood, and give off no errant coals or floating embers.

Our unique steel reinforced refractory logs stand up to years of use. Each log is cast from hand-carved masters, patterned after real wood pieces for exceptional detail. Our craftsmen paint every log by hand to accentuate the natural color and beauty in the bark, the split wood, and the charred areas. Refractory logs carry a limited lifetime warranty against defects in materials and workmanship. Ceramic logs carry a 5-year warranty.

Vented burners come in double, triple and see-through models – from 60,000 to 90,000 Btu – available in Radco and UL certified models. Non-certified 36-inch and 42-inch triple burners go up to 140,000 Btu.

All of our logs and burners are made in the USA.

## Double Burners

Twin burner delivers massive flames. Includes log grate, sand and burning embers.

Double Burner (BX)

## See-Through Burners

Includes burner, log grate, sand, and burning embers.

See-Through Burner (B3)  
(requires see-through log set)

## Vented Slope Glaze Burners and Logs

A vented gas log set makes a great alternative to the hassle of building a log fire in your wood-burning fireplace. Just like a wood fire, a vented gas log set provides plenty of mesmerizing flames and flickering light. And when you are ready for bed, just flick the switch to turn it off – no waiting for the embers to die down.

Our Vented Slope Glaze Burners are rated at up to 75,000 Btu to create taller flames. Vented log sets are considered decorative systems and must be installed in a vented fireplace with the damper open.

Vented Slope Glaze burners are available in 18, 24, and 30 inches in millivolt and manual models. The Millivolt Vented Burners may be operated with an on/off remote control or wall switch. Vented systems may not operate on a thermostat.

**Ponderosa Refractory Log Set (LS-24CR2) with Vented Slope Glaze Burner System (VSR-24)**

**Driftwood Burncrete® Log Set (LS-24CD) with Vented Slope Glaze Burner System (VSR-24)**

**Super Stacked Wildwood Refractory Log Set (LS-24WRS) with Vented Slope Glaze Burner System (VSR-24)**

**Super Charred Oak Ceramic Fiber Log Set (LS-24C2S) with Vented Slope Glaze Burner System (VSR-24)**

## Outdoor Fireplace Systems

A fireplace extends the season for the outdoor living space you worked so hard to create. Our Carol Rose Coastal Collection includes linear and conventional fireplaces, linear fire pits, fireboxes, traditional log sets and contemporary burners.

All of our outdoor hearth products feature concealed controls and stainless steel for all exterior surfaces to provide lasting beauty. These products are designed for outdoor use only. For installation on a covered deck or porch, at least two sides of the enclosure must remain open at all times.

## Outdoor Fire Pits

Made from heavy marine-grade stainless steel, our Fire Pits are built to withstand harsh environments – whether it's poolside or seaside. Fire Pits offer manual valve and electronic ignition (with flame sensor) and are available with or without Multi-colored LED Lighting. Installed low to the ground or at table height, a Linear Fire Pit provides all the excitement and ambiance, while allowing a clear view to the rest of your yard.

Our linear Fire Pits are available in 48-inch (55,000 Btu) and 60-inch (65,000). Accessories include weather doors/covers, tempered glass wind guards, and drain trays to control water run-off.

## Contemporary Linear Fireplaces

These large fireplaces are designed to serve as the centerpiece of your outdoor entertaining. Available in see-through and single-sided models, our linear systems feature a burner concealed beneath a bed of clear frost crushed glass and illuminated from below with LED lighting. Simple intuitive controls let you program the lighting to change color, intensity, and tempo to suit your mood. A push of a button lights the fire and a sensor shuts off the gas if the flame is extinguished. A manual control valve offers three flame settings. Choose 48-inch at 55,000 Btu or 60-inch at 65,000 Btu. Options include weather doors and a drain tray to control water runoff.

## Conventional Outdoor Fireplaces and Fireboxes

The Carol Rose Coastal Collection started with this traditional fireplace and a refractory log set. Available in 36-inch and 42-inch sizes.

**Carol Rose Coastal Collection 60-inch Contemporary Linear Outdoor Fire Pit with Multi-colored LED Lighting in a custom table**

**Carol Rose Coastal Collection 48-inch Contemporary Linear Outdoor See-Through Fireplace in a custom surround**

**Carol Rose Coastal Collection 48-inch Contemporary Linear Outdoor Single-Sided Fireplace in a custom surround**

**These special outdoor products are named for customer service manager Carol Rose Burtz, who has been with Empire for more than 58 years. As the first time we have named a product for an employee, this represents an appropriate honor recognizing Carol's exceptional history with the company. Shown: Carol Rose Coastal Collection 36-inch Traditional Outdoor Fireplace**

The traditional fireplaces are rated at 50,000 for both the 36-inch and 42-inch sizes. Options include weather doors, bi-fold doors, and drain trays.

Our Direct Ignition systems fit your green lifestyle by eliminating the standing pilot light. Millivolt systems include a standing pilot and will operate with an optional remote or wall switch.

Our fireboxes (36 or 42-inch) share the same stainless steel construction but allow you to install another outdoor gas burner or log set.

## Traditional Burners and Log Sets

The Carol Rose Coastal Collection includes the Wildwood Refractory Log Set designed specifically for outdoor use with our Harmony Stainless Steel Burner. Both the 24-inch and 30-inch burners are rated at 50,000 Btu – generating plenty of flames to complement the massive concrete log set.

Available in Direct Ignition or Millivolt technology, these special burners feature internal baffles to induce movement in the flames for an exceptionally natural looking fire.

## Contemporary Burners

Our contemporary burner completes your modern outdoor décor. With stainless steel top and linear burner, these systems deliver 36,000 Btu in 24-inch models and 40,000 Btu in 30-inch – with plenty of flames to delight your guests and light up your outdoor event.

Traditional and contemporary burners are designed for installation in an outdoor fireplace or firebox only. Choose LP or Natural Gas.

**Carol Rose Coastal Collection Ventless Harmony Outdoor Burner with 24-inch Wildwood Log Set**

**Carol Rose Coastal Collection 30-inch Ventless Contemporary Outdoor Burner**
